Dividend policy:	<p>Accumulating Share Class accumulates income and pays no dividend.</p> <p>Subject to the Company's discretion, the Distributing Share Class may pay dividends to the shareholders on a monthly basis out of the gross income of the Distributing Share Class. As a result, dividends may comprise investment income, realised and unrealised gains, and capital. Expenses charged to such Distributing Share Class may be paid out of capital. Distribution out of gross income means distributing</p>

	<p>out of investment income while paying all of part of fees and expenses out of capital resulting in an increase in distributable income for payment of dividends, i.e. effectively pay dividend out of capital. Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of capital or effectively out of capital may result in an immediate reduction of the NAV per Share of the relevant Distributing Share Class.</p> <p>There is no guarantee that any distributions will be made and there is no target level of distribution payout.</p>
Minimum investment:	<p>US\$1,000 initial for Class A Shares US\$1,000,000 initial for Class I Shares</p> <p>The subsequent minimum investment amount is not applicable to Class A and I Shares.</p>
<p>What is this product?</p> <p>Thornburg Limited Term Income Fund (the “Fund”) is a sub-fund of Thornburg Global Investment plc (the “Company”) constituted as an open-ended umbrella type investment company with variable capital incorporated in Ireland as a public limited company. The Company is domiciled in Ireland and its home regulator is the Central Bank of Ireland (“CBI”).</p>	
<p>Objectives and Investment Strategy</p> <p>Objective The Fund's investment objective is to provide a high level of current income and preservation of capital.</p> <p>Strategy The Fund pursues its investment goals primarily by investing (at least 65% of its NAV) in (i) debt securities issued by the U.S. government, its agencies and instrumentalities, (ii) debt securities rated at least A- by Standard & Poor's Corporation or A3 by Moody's at the time of purchase or if no credit rating is available, judged to be of comparable quality by the Investment Manager and (iii) cash and money market instruments. However, the Fund's investment in unrated securities will be less than 30% of the Fund's NAV.</p> <p>The Fund may also invest up to 35% of its net assets in debt obligations rated between BBB+ and BBB- (inclusive) by Standard & Poor's or between Baa1 and Baa3 by Moody's or of equivalent quality at the time of purchase.</p> <p>The Fund will not invest in below investment grade securities, as rated by Moody's or any other U.S. accredited rating agency.</p> <p>The reference to “Limited Term” in the Fund's name reflects that the Fund intends to maintain a portfolio of investments with a dollar-weighted average maturity or expected life of normally less than five years.</p> <p>The debt obligations that the Fund may invest in may include corporate debt obligations, treasury and government agency obligations mortgage-backed securities, other asset-backed securities, municipal securities (debt securities issued by state and municipal governments), non-US government securities, forwards in securities and bank loans.</p> <p>The Fund may invest in debt instruments with loss-absorption features (“LAP”), including bail-in bonds issued by banks, which will be less than 30% of its net asset value. These instruments may be subject to contingent write- down or contingent conversion to ordinary shares on the occurrence of trigger event(s).</p> <p>The Fund may engage in transactions in Financial Derivative Instruments (“FDI”) for the purposes of hedging. The Fund may also use such FDI for investment purposes to the extent the Investment Manager believes such investments may assist the Fund in pursuing its investment goals.</p>	

The asset classes in which the Fund invests or is otherwise exposed may be denominated in a wide range of currencies other than USD, the base currency of the Fund. As a result, the Fund may have foreign currency exposure. The Investment Manager will exercise discretion in deciding whether or not to hedge all or some of such currency exposures back into the base currency of the Fund using financial derivative instruments.

The Fund intends to invest at least 40% of its NAV in a manner that promotes the environmental characteristic of carbon emissions management and the social characteristic of favourable access to high quality and transparent capital markets resulting in financial empowerment and lending best practices. Investments which are not promoting the environmental characteristic and social characteristic will be in investments which otherwise fulfil the investment objective of the Fund, cash or other short-term investments for temporary defensive or liquidity purposes.

The Investment Manager in pursuit of the environmental and social characteristics sought to be promoted by the Fund will apply the exclusion criteria as detailed in the Supplement of the Fund.

For more information about the Fund's Investment Objective, Investment Policy and Investment Approach, please refer to the Supplement and the Hong Kong Covering Document of the Fund.

Use of Derivatives

The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the offering document for details including the risk factors.

1. Investment Risk/General Market Risk

- The Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.
- The Fund's investments are subject to general market risks, as the value of such securities (e.g., bonds) and therefore the Fund's value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

2. Risks associated with Debt Securities

Credit / Counterparty risk

The Fund is exposed to the credit/default risk of issuers of the debt securities that the Fund may invest in.

Interest rate risk

Investment in the Fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.

Credit rating risk/ Downgrading risk

- Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.
- The credit rating of a debt instrument or its issuer may subsequently be downgraded. In the event of such downgrading, the value of the Fund may be adversely affected. The Investment Manager may or may not be able to dispose of the debt instruments that are being downgraded.

Sovereign debt risk

The Fund may invest in securities issued or guaranteed by governments may be exposed to political, social and economic risks. In adverse situations, the sovereign issuers may not be able or willing to repay the principal and/or interest when due or may request the Fund to participate in restructuring such debts. The Fund may suffer significant losses when there is a default of sovereign debt issuers.

Risks associated with collateralised and/or securitised products

The Fund may invest in asset-backed securities and mortgage-backed securities (which include but are not limited to CMOs, CDOs, CBOs, CLOs and structured notes), which may be highly illiquid and prone to substantial price volatility. These instruments may be subject to greater credit, liquidity and interest rate risk compared to other debt securities. They are often exposed to extension and prepayment risks and risks that the payment obligations relating to the underlying assets are not met, which may adversely impact the returns of the securities.

3. Currency Risk

Underlying investments of the Fund may be denominated in currencies other than the base currency (USD) of the Fund. Also, a class of shares may be designated in a currency other than the base currency of the Fund. The NAV of the Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

4. Liquidity Risk

The Fund may have difficulty buying or selling certain securities readily which may have a financial impact on the Fund.

5. Risks associated with Investment in FDI

Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of an FDI can result in a loss significantly greater than the amount invested in the FDI. Exposure to FDI may lead to a high risk of significant loss by the Fund.

6. Risks associated with Dividends Out of / Effectively Out of Capital

Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the NAV per Share.
